### Next Year

Your committee will be meeting at the beginning of January to decide the schedule for the next season. Hopefully, we will have better weather. There will be a new venue for the next season. Emma Darley, our course builder, has recently moved to the Oaks at Everingham and is happy to let us use this as a venue for future Club events.

We have had many happy times at the club field behind the Squirrels but the time has come for us to move on. Thanks go to Janet and her father for the past use of their field.

Look out for the next newsletter for details of future events.

If you have any ideas for next year please let me know.

Look forward to meeting you all next year.
